

Glenn Wilson

Senior Consultant

Glenn Wilson is a Senior Consultant for Wilson Consulting Group and is a highly-experienced Health and Safety professional with over 25 years in both operational and HSE roles.

His experience covers Mining, Manufacturing, FMCG, Utilities and Transport industries which provides him with a solid foundation and understanding of what it takes to achieve high performance safety culture, leadership and operational excellence.

Glenn is innovative in his approach with highly developed analytical and conceptual skills and a proven ability to develop creative solutions to complex safety problems. He has a strong background of practice-based experience around engaging and working with people across a wide range of levels within organisations. He also has an adaptable communication style to suit a wide range of audiences and a coaching style approach to learning and instruction.

Glenn specialises in the design and development of safety management systems to manage, audit and improve a company's safety performance ensuring that legislative requirements are met.

He is committed to promoting strong leadership and mentoring in the safety field and to building skills for Managers tasked with this responsibility.

Glenn works with many Wilson Consulting Group clients to offer the following services:

- Safety leadership facilitation
- Audit and assurance
- Risk management and control
- Hazard identification and risk assessment
- Leadership development

Glenn's qualifications include:

- Advanced Diploma Of OHS,
- Certificate IV in Workplace Assessment and Training,
- Integrated management system auditor,
- WorkCover NSW Approved WHS Trainer.
